

THE DEPUTY REPRESENTATIVE OF THE UNITED STATES  
TO THE UNITED NATIONS

October 30, 1978

Ms. Lorna Brennan  
Committee on Admissions  
Council on Foreign Relations  
58 East 68th Street  
New York, New York 10021

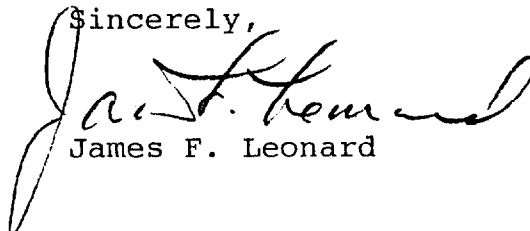

Dear Lorna:

I am writing to second Dr. Joshua Lederberg's nomination for membership in the Council on Foreign Relations. I have known Dr. Lederberg since he came to Geneva in 1970 as a Special Adviser on the Biological Weapons Convention. His outstanding professional reputation had, of course, preceded him. His strong interest in foreign affairs and concern for international issues, as well as his expertise in the complex questions at hand, were evident in all aspects of his participation in the work of the Disarmament Committee.

Concurrently with his work on genetics at the Stanford School of Medicine, he has concerned himself with problems of the developing work, most notably in environmental and health affairs, including the work of the World Health Organization.

Dr. Lederberg takes well to public affairs and would certainly prove a stimulating contributor to Council meetings and activities. I am pleased to give my wholehearted support to his nomination.

Sincerely,

  
James F. Leonard
